

Technical Data Sheet: ZDA8433B

Double Sided Acrylic Foam Tape

ZDA8433B is a black acrylic foam tape designed with excellent adhesion and shear strength. It is also resist UV lights and can withstand elevated temperature.

Characteristics

- Superior adhesion, suitable for various type of substrates such as metals, plastics and painted surface
- Excellent static and dynamic shear and resistance to shock
- Excellent ageing, temperature, UV light and moisture resistant

Applications

- Suitable to be applied to many industries such as automobile, electronics, advertisement, building and hardware
- Suitable to be used for solar panel and in elevator application

Properties

Properties	ZDA8433B
Tape Colour	Black
Tape Thickness (µm)	400
180° Peel Adhesion (30mins dwell) (N/25mm)	
SUS	≥ 35
PC	≥ 25
PP	≥ 15
Dynamic Shear (30mins dwell, 25mm x 25mm) (N)	≥ 400
