

Technical Data Sheet: ZDA8500

Acrylic Foam Tape

ZDA8500 is a high-viscosity acrylic foam tape designed with good balance of peel strength, initial tack and shear strength.

Characteristics

- It has the effects of waterproof, shock absorption, heat resistance, sound insulation, etc.
- Strong adhesive force and good weather resistance
- Good durability in high and low temperature environments and excellent adhesion to high surface energy and low surface energy materials

Applications

- Suitable for badge and emblem mounting, and sealing strip mounting in automobiles
- Also suitable for lens bonding in electronics and home appliances industry

Properties

Properties	ZDA8500	Standard
Tape Colour	Transparent	-
Tape Thickness (μm)	500	-
Adhesion Strength (kgf/inch)	≥ 2.8	GB/T2792-2014
Holding Power (Hr)	≥ 24	GB/T4851-1998
Heat Resistance (°C)	-10 ~ 120	GB/T4851-1998
