

Technical Data Sheet: ZDF1000TB

Double Sided PE Foam Tape

ZDF1000TB is a black PE foam tape designed for home appliance decoration panel bonding and metal/plastic frame bonding. Also, it is suitable for industrial applications where high temperature, UV resistance, good moisture resistance and dimensional stability are required.

Characteristics

- Excellent temperature and UV resistance
- Good moisture resistance
- Excellent dimensional stability

Applications

- Suitable for home appliance decoration panel bonding
- Also used in metal and plastic frame bonding

Properties

Properties	ZDF1000TB	Standard
Tape Colour	Black	-
Tape Thickness (μm)	1000 ± 10%	ASTM D1000
Tensile Strength (N/25mm*25mm)	17	GB/T7753
180° Peel Adhesion (N/25mm)	15	GB/T2792
Initial Adhesive (N/25mm*25mm)	22	PSTC-5
Temperature (°C)	80	-
Holding Power (1kg, 25mm x 25mm) (Hr)	≥ 48	GB/T4852
