

Technical Data Sheet: ZDP8050

Double Sided PET Tape

ZDP8050 is a transparent double sided tape consist of PET as carrier and coated with acrylic adhesive on both sides. This product provides excellent adhesion to smooth surfaces and superior die-cut ability as well as processing performance. It is used to mounting of mobile assembly such as backlight module of LCD display, metal frame and much more.

Characteristics

- Excellent adhesion to smooth surfaces
- Superior die-cut ability as well as processing performance

Applications

- Applied to mounting of mobile assembly such as backlight module of LCD display, metal frame and much more

Properties

Properties	ZDP8050
Tape Colour	Transparent
Tape Thickness (μm)	50
180° Peel Adhesion to Steel (Dwell 30mins) (N/25mm)	≥ 10
Static Shearing (1000g, 25mm x 25mm) (min)	≥ 1440
Temperature Resistance ($^{\circ}\text{C}$)	100
