

Technical Data Sheet: ZDP8103

Double Sided PET Tape

ZDP8103 is a transparent double sided tape consist of PET as carrier and coated with acrylic adhesive on both sides. This product provides good adhesion to smooth surfaces and superior die-cut ability as well as processing performance.

Characteristics

- Excellent adhesion and holding power
- Excellent die-cutting performance and temperature resistance
- Good bonding effect on different plastic films, hardware or painted plate

Applications

- Suitable to be used for mounting module and metal frame
- Mounting tape for corrugated flexo plate
- Also used for mounting in decorative parts in furniture and metal sheets

Properties

Properties	ZDP8103
Tape Colour	Transparent
Tape Thickness (μm)	100
180° Peel Adhesion to Steel (dwell 30mins) (N/25mm)	≥ 8
Holding Power (1000g, 25mm x 25mm) (min)	≥ 600
