

# Technical Data Sheet: ZDP8205B

## Double Sided PET Tape

ZDP8205B is a double sided tape consist of black PET as carrier and coated with acrylic adhesive on both sides.

## Characteristics

- Excellent adhesion and holding power
- Good light shielding
- Good bonding effect and covering performance as well as good adhesion to various type of materials

## Applications

- Suitable to be used for shading/masking of various borders in the digital electronics industry

## Properties

| Properties                                                           | ZDP8205B |
|----------------------------------------------------------------------|----------|
| Tape Colour                                                          | Black    |
| Tape Thickness (μm)                                                  | 205      |
| 180° Peel Adhesion to Steel (Dwell 30mins)<br>(N/25mm)               | ≥ 16     |
| Static Shearing (24mm x 24mm)<br>(1000g, 5.76cm <sup>2</sup> ) (min) | ≥ 1440   |
| Temperature Resistance (°C)                                          | 120      |
