

Technical Data Sheet: ZSI9035

Single Sided Polyimide Silicone Tape

ZSI9035 is a high temperature resistant single-sided pressure-sensitive tape with polyimide film as the base material and coated with silicone adhesive.

Characteristics

- High temperature resistance
- Good insulation
- Dimensionally stable

Application

- Suitable for gold masking for PCB

Properties

Properties	ZSI9035	Standard
Tape Colour	Amber	-
Tape Thickness (mm)	0.035	-
Breakdown Voltage (KV)	4.0	PSTC-51
Elongation at break (%)	50	PSTC-31
Tensile Strength (N/25mm)	115	PSTC-31
Peel Adhesion on Steel (N/25mm)	3.5	PSTC-101
Temperature Resistance (°C)	250	-
