

Technical Data Sheet: ZSP8050B

Single Sided Polyester Tape

ZSP8050B is a black single sided polyester tape with acrylic adhesive.

Characteristics

- Good adhesion and electrical insulation properties
- Good electrical isolation properties such as volume resistivity
- Good dielectric breakdown voltage

Applications

- Suitable for secondary Electrical insulation or protective jackets for all electrical cables and wires
- Suitable for electrical core or interlayer insulation or electrical isolation
- Also use for taping off and final bandage for coil winding and small motor with central coils

Properties

Properties	ZSP8050B	Standard
Tape Thickness (μm)	50	ASTM D1000
Peel Adhesion (kg/25mm)	> 0.6	ASTM D3330
Elongation (%)	≥ 45	ASTM D1000
Tensile Strength (kg/25mm)	≥ 4	ASTM D1000
Holding Power (Hr)	> 24	PSTC-107
Initial Tack (Ball #14) (cm)	< 10	PSTC-6
