

Technical Data Sheet: ZSP8050BR

Single Sided Removable PET Tape

ZSP8050BR is a single sided tape with age resistant tackified acrylic adhesive that is constructed with 25µm polyester film (black).

Characteristics

- Provide residue-free removal from different types of substrate after assembly or at a later stage of application process
- Residue-free removal properties remain intact even with heat being applied during assembly
- Low thickness tolerance of tape
- Suit with various type of die cut

Applications

- Suitable to be used for holding of parts during die cutting
- Suitable for temporary labelling (with coloured version) and positioning of metal stencil
- Taping off and final bandage for coil winding and small motor with central coils.

Properties

Properties	ZSP8050BR
Tape Thickness (µm)	50
Peel Adhesion (N/25mm)	5
Elongation (%)	> 80
Tensile Strength (N/25mm)	> 100
