

Technical Data Sheet: ZSPV6120G

Single Sided PVC Tape

ZSPV6120G is a single sided PVC tape consists of premium grade polyvinyl chloride film coated natural rubber adhesive.

Characteristics

- Good thermal and electrical insulator and adaptable to sudden change in temperature
- Strong tack adhesive, easily conformable on applications
- High resistance to UV, abrasion, moisture, alkali, acids, corrosion and varying weather conditions

Applications

- Suitable to be use for insulating, tabbing and wrapping of electrical wire and cables under 600V and 80°C

Properties

Properties	ZSPV6120G	Standard
Colour	Green	-
Tape Thickness (µm)	120	-
Peel Adhesion to Steel (N/cm)	1.4	ASTM D3330
Elongation (%)	150	ASTM D375
