

Technical Data Sheet: ZSSC3800

Anti-slip Tape

ZSSC3800 is designed for roller wrapping in a variety of manufacturing and printing processes that utilize roller systems to process web-based materials, such as films, textiles, paper, and more.

Characteristics

- Good initial adhesion
- Excellent peel adhesion and repulsion resistance
- The silicone cloth surface which has anti-slip effect provide good web guide
- The silicone cloth surface which has anti-stick effect provide web with adhesive to pass through smoothly

Applications

- Wrapping of coating, printing, slitting guide rollers
- Wrapping of rollers for machine produce diaper

Properties

Properties	ZSSC3800
Thickness (μm)	800 +/- 10%
Colour	Grey, Black
Peel Adhesion (N/25mm)	≥ 40
Operating Temperature (°C)	-20 ~ 80
Elongation at Break (%)	6
